## TREE CARE GUIDE

The Japanese Blueberry (*Elaeagnus decipiens*) is an evergreen tree that works well as a centerpiece in your landscape or as a privacy screen. They are native to Japan and China and are often planted in U.S.D.A plant hardiness zones 8 through 11 around the borders of properties. They are noted for their lush evergreen foliage that adds elegance and year-round interest to landscapes. These trees establish quickly. Japanese Blueberry are naturally beautiful trees that do not need much care or maintenance to look and stay healthy.
