

# MAGNOLIA TREE

## WATER

## SUN

## CARE

## INFORMATION

- Beautiful summer blooms
- Great shade
- Moderate size tree
- Clean

## TREE CARE GUIDE

The Southern Magnolia trees are great shade providers. These trees should be watered to a depth of 36" with each watering. Older, more mature trees should also be deep watered saturating the entire root ball. Pruning should be done when needed only, and is not required frequently. Like all trees, these should be fertilized regularly following the recommended schedule below.

## FERTILIZER SCHEDULE
