INFORMATION

- Blue arching fronds
- Slow growing
- Cold & heat hardy palm
- Full sun

TREE CARE GUIDE

Pindo Palms are slow growing and very hardy palms. These palms are water-wise and drought tolerant once established. These palms require little maintenance and grow easily in different types of soils and weather conditions. Trimming is required when new fronds grow out the center or heart of the palm and the older fronds begin to hang lower and turn brown. Cut them close to the trunk to keep a clean looking base.
